

StayNTouch Integration

Configure an integration with StayNTouch PMS to automatically import contacts and reservation data to Zingle

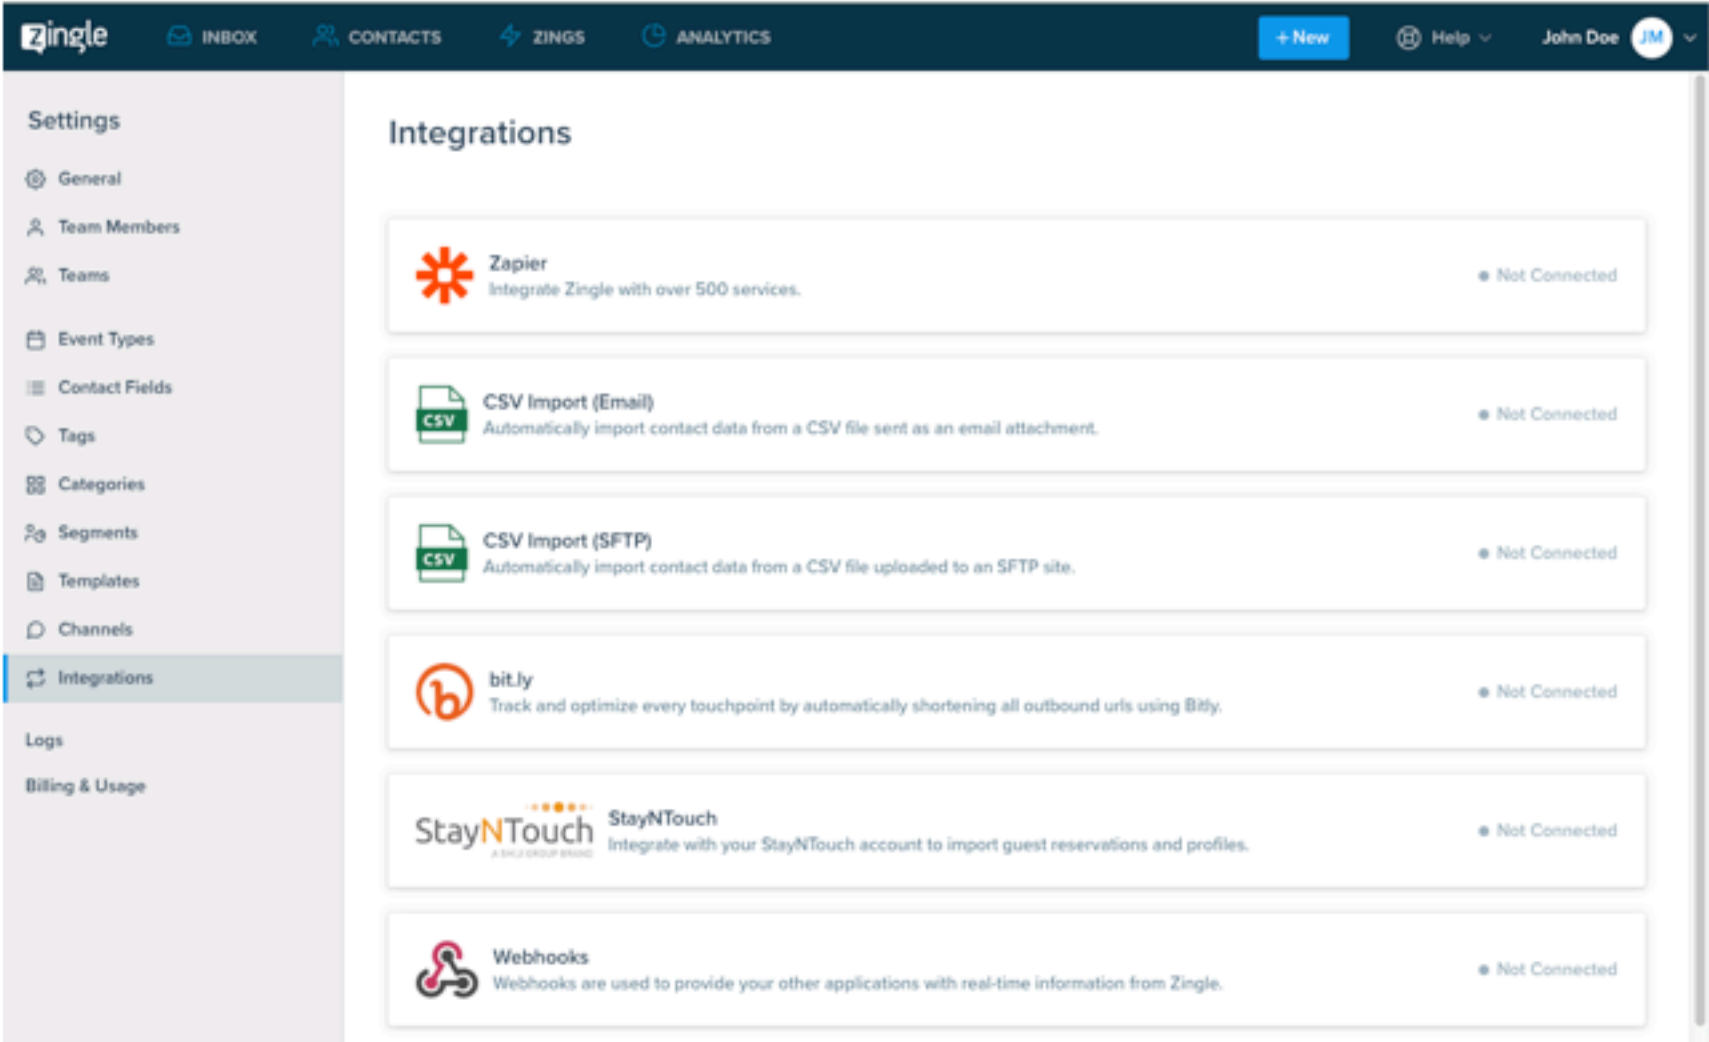

Written by Julia Matsuoka
Updated over a week ago

Overview

If you use StayNTouch for your PMS, you can integrate with Zingle to automatically synchronize contact and reservation data with Zingle.

How to set up the integration

- To get started, contact your StayNTouch team:
 - USA HQ**
 - sales@stayntouch.com
 - [+1 301 358-1356](tel:+13013581356)
- The StayNTouch team will request that you send written permission that StayNTouch can share the API credentials with Zingle.
- The StayNTouch team will then provide the Zingle trainer with the **Hotel Identifier**, **Client ID**, and **Client Secret Code**.
- As an Administrator, navigate to the Integrations section: **Admin Settings > Integrations**

- Locate and click on the **StayNTouch** Integration to access the setup screen

StayNTouch

● Not Connected

i Integrate with your StayNTouch account to import guest reservations and profiles. [Learn more.](#)

Hotel Identifier*

Client ID*

Client Secret*

Save & Activate

- Enter your **Hotel Identifier**, **Client ID**, and **Client Secret Code**.
- Click "Save & Activate"

Once this is completed, you can begin importing reservation and contact data from StayNTouch into Zingle.

After Zingle receives the initial file, the process to validate the information in Zingle will take approximately 2 to 3 business days.

That's it! If you have any questions, please reach out to our team via chat or send us an email at support@zingleme.com.
